# Prestan® Professional Ultralite™ Adult Manikin 4-Pack

4 Manikin Torsos, 4 Manikin Heads, 4 Compression Pistons, Nylon Piston Bag, 50-pack Lung Bags, Nylon Carrying Case with Detachable Shoulder Strap and an Instruction Sheet.

Away from the classroom, instructors want their students to act confidently when faced with a cardiac emergency, knowing that they are a crucial link in the cardiac chain of survival. Their actions help save lives of people experiencing sudden arrest.

Achieve this with Prestan Professional's most portable manikin training kit. Amazingly easy to set up and sold in a convenient and lightweight 4-pack for efficient training-on-the-go. This durable set of **vinyl and latex free** manikins offers an affordable tool for CPR training with all the quality and realism you expect from Prestan.

Features of the Prestan® Ultralite™ manikin include:

- Uniquely fast and easy set-up.
- Stackable torsos and heads generate a compact package for transporting multiple units.
- Clamshell torso opening provides quick access for the easy-to-insert lung bag.
- Realistic skin resists dirt, grime and grease.
- Adequate upper chest sizing facilitates AED pad placement and training.
- Visual anatomy landmarks reinforce proper hand placement for compressions.
- Head-tilt illustrates how to open the airway and allows each student to observe a true chest rise when proper head-tilt chin-lift technique is used.
- Life tested to a half-million compressions.
- Manikins are easy to clean and capable of being decontaminated per CDC guidelines.

**\$340.00ea**

## Prestan Professional Ultralite 50-Pk Face-Shields

If manikins are shared during your training class, you'll want to use a filtered face shield to minimize the risk of cross contamination between students. The Prestan face shield makes it easy and since it's secured to the manikin, it won't slip. No need for adhesives! Your students will spend less time distracted by an unruly barrier and more time practicing their skill.

**\$17.00/pk**

## Prestan Professional Ultralite 50-Pk Face-Shield Lung-Bags

Don't waste valuable training time fumbling with removable manikin parts, pistons or clips. Insertion of the one-piece lung bag design is a breeze! Fold it up, slide it in and you are ready for training. If students won't be sharing manikins during class, you do not need an additional manikin face shield.

**\$22.00/pk**

# Prestan Family Pack

2 Adults, 1 Child and 2 Infants, all **with** LED Rate Monitors.

Prestan Professional's revolutionary new CPR manikins with Rate Monitor. The LED indicators allow for instant feedback to both instructor and student regarding their rate of chest compressions. Instructors can monitor several students quickly and easily, while students themselves can visually gauge their compression rate reinforcing more practice time using proper technique

Features include:

- Realistic looking Adult and Child manikins with pinch-able noses and fully formed neck portions that allow for a carotid pulse check.
- Infants are realistically-sized! "Flick their feet" reminds students to check for level of consciousness – easily taught since the manikins have fully formed legs with feet. Moveable arms even allow for brachial pulse checks.
- Realistic skin resists dirt, grime and grease.
- Adequate upper chest sizing facilitates AED training.
- Visual anatomy landmarks such as a navel and ribcage on the Adults and Child allow for practice of the Heimlich maneuver and reinforce proper hand placement for compressions.
- On the Infants, anatomy landmarks such as clavicles, an accurate nipple line, sternum and xyphoid process facilitates the practice of choking skills as well as reinforcing proper finger placement for compressions.
- Head-tilt illustrates how to open the airway and allows each student to observe a true chest rise when proper head-tilt chin-lift technique is used.
- Clicker mechanisms increases student's confidence in administering adequate compressions.
- Manikins are capable of being cleaned and decontaminated per CDC guidelines

**\$520.00ea**

Prestan Adult Face Shield  
Lung-Bags (50-Pack)

**\$22.00/pk**

Prestan Child Face Shield  
Lung-Bags (50-Pack)

**\$22.00/pk**

Prestan Infant Face Shield  
Lung-Bags (50-Pack)

**\$19.75/pk**

Don't waste valuable training time fumbling with removable manikin parts, pistons or clips. Insertion of the one-piece lung bag design is a breeze! Fold it up, slide it in and you are ready for training. If students won't be sharing manikins during class, you do not need an additional manikin face shield.

# TPAK700 CPR Prompt 5 Adult/Child Manikins & 2 Infant Manikins

Comprehensive design allows for practice of Heimlich maneuver and abdominal thrusts, as well as CPR and mouth-to-mouth breathing. Realistic anatomical markings (Adam's apple, carotid arteries, navel, rib cage, chest notch) make it easy to learn correct hand placement for checking pulse, performing chest compressions, and more.

Features include:

- Head tilt/chin lift required to open airway
- Proper anatomical landmarks
- Audible compression clicker to ensure proper technique.
- Ideal for group training - allows each student to have their own manikin for maximum practice time. Easy-to-clean heads are dishwasher safe and can easily be sanitized. Lung bags are replaceable. Designed to meet American Heart Association criteria for desirable manikin features.
- Economical package of seven CPR Prompt manikins includes five adult/child manikins, two infant manikins, 50 adult/child face shield/lung bags, 20 infant face shield/lung bags, and nylon carry case.
- **NOTE:** Only use AED pads designed for foam body manikins.

**\$525.00ea**

Infant Face Shield  
Lung Bags CPR  
Prompt (Pkg 100)

Combination face shield / lung bags  
for CPR Prompt infant manikins.

Insert Tool 5 Pk CPR  
Prompt

Face-Shield / Lung Bag Insertion tool.

**\$17.00/pk**

CPR Practice-Shield  
Manikin Face Shields  
(50 per box)

CPR Practice-Shields are ideal for CPR  
and AED training, offering cost  
effective barrier protection for  
students sharing a manikin.  
Individually folded and packed in a  
dispenser box. Latex free. For  
training only. Used in addition to  
disinfection it offers an inexpensive  
extra barrier protection for students  
sharing a CPR manikin!

**\$25.00/box**

CPR Faceshield with  
One-Way Valve in  
Nylon  
Keychain/Pouch

CPR face shield in nylon CPR keychain pouch. Perform CPR and artificial resuscitation without the risk of ingesting harmful bacteria. Rescue Breather features a true one-way valve and mouth-to-mouth barrier. Secures over ears for hands free operation. One size fits children to adults. (Quantity pricing discounts)

**\$5.00ea**

CPR Practi-Mask  
(10/Box)

Training masks provide a cost effective solution for teaching CPR without using a more expensive rescue mask. Soft, pliable bladders conform well to manikin faces. This is a box of 10 masks only – valves are sold separately.

**\$31.75/box**

CPR Micromask  
Trainer Valve - Practi-  
Valve (10 Pack)

An innovative solution to better use your training dollars! These CPR practice training valves or “Practi-Valves” are the perfect solution for costly training. They’re affordable, one-time use, and fit nearly all CPR masks! This is a must have for any CPR trainer!

**\$10.50/pk**

Practi-MASK  
Adult/Child CPR  
Training Mask and  
Valve (10/Box)

The Practi-MASK Adult/Child CPR training mask & Practi-VALVE combo is a cost effective tool for classroom training of CPR, and provides an alternative to the use of traditional CPR resuscitator with human use one-way valve. The Adult/Child Practi-MASK includes a soft, pliable bladder for conforming to manikin faces. The Practi-VALVE features a cotton breathing filter.

**\$40.00/box**

CPR Rescue Masks

CPR Rescue Masks (adult/child rescue mask in a hard shell pouch, includes gloves, alcohol pad, mask and one-way valve. (10pc min – quantity pricing discounts)

**\$7.50ea**

EpiPen Trainer - Auto-Injector Training Device

The perfect training tool for teaching proper technique and protocol for EpiPen use. Contains no fluids, epinephrine or needle. A medical letter is not required to make this purchase. For Training purposes only. (10 pc min)

**\$8.50ea**

First Aid Training Kit

Cost effective solution for First Aid Training:

- 1 pair of vinyl gloves
- 2 non-sterile gauze pads, 4"x4"
- 1 non-sterile conforming roller gauze, 3"
- 2 triangular bandages (non-woven)
- Individually wrapped

**\$190.00 100/box**

Student First Aid & CPR Training Kit w/ Muslin Bandages

Cost effective solution for CPR and First Aid Training:

- 1 pair vinyl gloves
- 1 non-sterile conforming roller gauze 3"
- 2 non-sterile gauze pads, 4"x 4"
- 2 triangular bandages (muslin)
- 1 CPR Practi-shield

(10 pc min) Large quantity discounts (100/bx)

**\$3.50ea**  
**\$210.00 100/box**

# Philips HeartStart FRx Defibrillator

The Philips FRx Defibrillator features technological advancements to help in treating the most common cause of SCA. It's designed to be easy to set up and use, as well as rugged and reliable for those who get there first. On the scene with laws enforcement, on the field with student athletes or on the job with employees, the FRx Defibrillator is the solution for treating SCA in environments and conditions too demanding for other defibrillators.

## **Preconnected SMART Pads II**

SMART Pads II can be used for both adults and children. They eliminate the expense of having to purchase different sets of pads for different patient types. SMART Pads II enable the FRx to keep pace with responders by adjusting to their actions.

## **Infant/Child Key**

Simply insert the Infant/Child key into the FRx to signal to the device that you're treating an infant or a child. The defibrillator adjusts to provide special pads placement and CPR instructions. The pads icons also flash to show you the optimized pads placement, and the device reduces the shock energy to a level more appropriate for an infant or child.

## **Intuitive**

Clean design and clear voice instructions, including CPR coaching, are designed to help instill the confidence that's needed when treating a person in cardiac arrest.

## **Wireless Data Transfer**

Infrared data port for easy transmission to a Smartphone or PC running Event Review software, without cables or hardware compatibility issues.

FRx Carrying Case

Constructed with easy-to-clean urethane, this case is durable enough to withstand bumps and drops, and provides easy access with a VELCRO® closure. The FRx case holds and protects your FRx Defibrillator and optional accessories, including a spare battery, two pads sets, the Infant/Child Key and Quick Reference Guide (989803138601). Includes strap. Dimensions: 9.5" (24.1 cm) w, 8.0" (20.3 cm) h, 5.0" (12.7 cm) d

FRx Hard-Shell Carrying Case

Our waterproof carry case made of hardshell plastic is suited for more rigorous use, particularly in wet outdoor settings. It can also accommodate a spare battery, spare pads cartridge, and the contents of the Fast Response Kit. Dimensions: 13.5" (34 cm) w, 12" (30 cm) h, 6" (15 cm) d

FRx Wall Mount Bracket

The Wall Mount Bracket is designed specifically for housing a Philips HeartStart defibrillator and its accessories. The defibrillator's carry case can be tethered to the Wall Mount Bracket with a breakaway Secure-Pull Seal (M3859A) to discourage tampering. A broken seal indicates that the defibrillator has been removed from the Wall Mount and accessories may need to be replenished. The Fast Response Kit (68-pchat) tucks neatly behind the Defibrillator Case. Dimensions: 10.5" (27 cm) w, 8" (20 cm) h, 6.9" (17 cm) d Weight: 18.4 ounces (0.52 kg)

AED Awareness Placard

Raise AED awareness by putting an AED Awareness Placard above every AED located in a public area. Easy-to-understand graphics raise awareness of passers-by about how to use an AED in an emergency. Great for office settings, sports clubs, public facilities, school settings and more. Dimensions: 10.25" (26 cm) w, 4.5" (11 cm) h

AED Wall Sign

An AED Wall Sign hanging above a Wall Mount Bracket or Defibrillator Cabinet gives even greater visibility to the defibrillator. Can be mounted three different ways to maximize visibility: T-mount, V-mount or Corner Mount. Face dimensions: 9" (23 cm) h, 6.1" (15 cm) d

Basic Wall Mount Cabinet

To help mobilize an emergency medical response or deter AED theft, Philips offers three different battery-operated, alarmed wall cabinets. The basic cabinet has a simple audible alarm. Also available are two premium cabinets: a wall surface mounted cabinet and a semirecessed cabinet that is inserted into a wall cut-out for a less obtrusive look.\* The premium cabinets feature combination audible and flashing light alarms. They are made of sturdy heavy-gauge steel, and are large enough to accommodate additional medical supplies, such as oxygen. You can also connect the premium cabinets' alarms to your internal security system so that a more coordinated emergency response can be mobilized centrally.

Dimensions: 16.5" (42 cm) w, 15" (38 cm) h, 6" (15 cm) d

Premium Surface Mount Cabinet

Dimensions: 16" (41 cm) w, 22.5" (57 cm) h, 6" (15 cm) d

Premium Semi-recessed Cabinet

Dimensions: Recessed Compartment 14" (36 cm) w, 22" (56 cm) h, 6" (15 cm) d Footprint on wall 16.5" (42 cm) w, 24.5" (62 cm) h, 2.5" (6 cm) d

SMART Pads II

Save valuable time in an emergency with pads that can be used on adults, children and infants. SMART Pads II eliminate the expense of having to purchase different pads sets for different patient types. These pre-connected pads are packaged in a semi-rigid pads case for added protection, and are equipped with a HeartStart compatible plug for easy hand-off to Philips ALS defibrillators and to competitive defibrillators with adapters. For patients less than 8 years old or 55 lbs (25 kg), use the infant/child key, if available

Long-Life Battery

The FRx Defibrillator uses a disposable, lithium manganese dioxide, long-life battery with a five-year shelf life plus a (typical) four-year installed life. A spare battery should be stored with the defibrillator. Additional batteries should be purchased for defibrillators used frequently for training and/or demonstrations.

Infant/Child Key

The unique Infant/Child Key is used only with the FRx Defibrillator when treating an infant or child who is under 55 lbs or 8 years old. Once the Infant/Child Key is inserted, the FRx automatically reduces the defibrillation energy and provides voice and visual instructions and CPR coaching specifically geared for treatment of infants/ children. Graphics on the key show proper pad placement for infants and children.

Fast Response Kit

The Fast Response Kit contains tools and supplies typically needed for patient care and personal protection: two pairs of hypoallergenic nitrile gloves, a pocket breathing mask, paramedic scissors, a chest hair razor, and a large extra-absorbent paper towel. These items are housed in a zippered pouch which attaches securely to the handle of the FRx carry case. Dimensions: 9.5" (24 cm) w, 5.5" (14 cm) h

FRx HeartStart Trainer

This training version of HeartStart FRx Defibrillator includes Trainer, Training Pads II, Carry Case, Instructions for Use, Quick Reference, and an external manikin adapter. This product can be used on a manikin equipped with an internal manikin adapter(M5088A) or an external manikin adapter (M5089A).

Training Pads II

Training Pads II can be used with the HeartStart FRx or the HeartStart FRx Trainer on a manikin connected with an external manikin adapter (M5089A) or on a pads placement guide (M5090A for adults; 989803139281 for infants and children). When training on the HeartStart FRx Defibrillator, simply plug in the Training Pads II to activate the FRx's training mode and suspend the defibrillator's ability to deliver a shock.

Infant/Child Key

The Infant/Child Key may be used to simulate infant/child therapy during training with the HeartStart FRx Trainer or with the HeartStart FRx AED with Training Pads II installed.
