

Leading **The World** In Emergency Burn Care

 **WATERJEL**[®]
TECHNOLOGIES www.waterjel.com

Be Prepared for Burn Injuries – Large and Small!

Everyone knows burn injuries are very painful. Even the smallest burns hurt and can cause lost work time. More than 25 years ago, WATER-JEL introduced water-based gel technology that revolutionized the emergency first aid treatment of burns. Today, WATER-JEL is used by EMS and industrial health and safety professionals around the world.

WATER-JEL burn care products utilize a thick water-based and water soluble gel made of 96% water, which is proven to dissipate heat and cool burns, quickly relieve pain, help stop burns from progressing deeper into the skin and help prevent infection. They remain moist and won't stick to burn injuries. They provide thermal (not evaporative) cooling, but won't get too cold or increase the risk of hypothermia – even on large extent burns. The gel also contains medically pure tea tree oil, a natural antibacterial. WATER-JEL Dressings and Fire Blankets can be used on all burns.

- Leading the World in Emergency Burn Care!
- Exclusive Supplier to the US Military
- Mandated in Formula One Racing . . . they cannot start a race without it trackside in every pit crew
- Made in the USA at an FDA-regulated facility
- Used by many Fortune 500 companies worldwide
- Helps reduce the impact of a burn and lost work time

Fire Blankets

Gel-soaked Fire Blankets extinguish flames on a victim, put out smoldering clothes, relieve pain, cool the burn, and protect against airborne contamination. Used by the US Military.

- Vital in areas where high heat flames, arc flash, hot liquid, steam or chemicals exist.
- Gel is water-soluble and can be easily rinsed off for further medical treatment.
- Blankets can also be used to put out fires and protect a rescuer from heat and flames.
- Available in 3 sizes: 36" x 30", 6 ft. x 5 ft., 8 ft. x 6 ft. in high visibility orange canisters or foil pouches.
- Wall mounting brackets also available.
- Medical Device - contains no active ingredients.

WALL BRACKET

Sterile Burn Dressings

Gel-soaked Burn Dressings cool the burn, relieve the pain and protect against airborne contamination. Used by EMS professionals worldwide.

- Perfect to add to any first aid kit, cabinet, or EMS kit.
- Consists of a medical grade non-woven pad, in a water-based, water-soluble gel.
- Won't stick to burn injury.
- Available in 6 sizes: 2" x 6", 4" x 4", 4" x 16", 8" x 18", 8" x 20" for Hand Burns, 12" x 16" Facial Dressing with pre-cut holes for eyes, nose and mouth.
- Medical Device - contains no active ingredients.

Burn-Jel®

Burn-Jel's thick gel cools and soothes minor burn injuries and relieves pain.

- Helps dissipate the heat and protect injury from infection.
- Contains pain-relieving Lidocaine.
- Available in 3.5g unit dose foil packets in 25-count and 6-count boxes and 4 oz squeeze bottle.
- Active ingredient: 2.0% Lidocaine.

SOFT-SIDED
LARGE KIT

SOFT-SIDED
SMALL KIT

Burn Kits

Soft-sided kits in Large and Small sizes as well as two different Hard-sided kits.

- Vital in areas where high heat flames, arc flash, hot liquid, steam or chemicals exist.
- Soft-sided kits are perfect for use in work vehicles or hanging on a wall.
- Each includes Burn Dressings and everything needed for addressing most Industrial, Institutional and Medical emergencies.
- Large Soft-sided Burn Kit contains 36" x 30" Burn Wrap Fire Blanket in a foil pouch.
- Durable nylon handle straps for easy carrying, or can be hung on a wall.
- Hard-sided kits are water-proof, made of high-impact plastic and can be wall-mounted.

HARD-SIDED KITS

Emergency Burn Stations

Two unique wall-mounted Burn Stations

- Offers full product visibility.
- Provides immediate access to a wide range of burn treatment products.
- Place in strategic locations where burn accidents are most likely to occur.
- Everything needed to treat burns – as soon as they happen.
- Large Station ideal in the industrial workplace; small station very well suited for fast food operations and smaller businesses.

Cool Jel

Topical cooling gel for minor burns.

- Helps dissipate the heat, moisturize and soothe the injury.
- Available in 3.5g unit dose foil packets in 25-count and 6-count boxes and 4 oz squeeze bottle.
- No active ingredients.

First Aid Pump Sprays

Helps decrease risk of infection from minor burns, cuts, scrapes and bites. Economical, compact 2 oz pump sprays provide hundreds of applications.

- Hydrogen Peroxide Spray
- Isopropyl Alcohol Spray (70% by volume)
- Itch-Relief Diphenhydramine Spray.
- Burn Spray
- First Aid Antiseptic Spray

First Aid Creams and Antibiotic Ointments in Unit Dose

- Triple Antibiotic
- Bacitracin
- Neomycin
- Maximum Strength 1% Hydrocortisone Cream
- First Aid Burn Cream with Aloe Vera.
- Available in 0.9g unit dose packets in 25-count and 144-count boxes.

First Aid Creams and Ointments in 1oz Tube

First Aid creams & ointments fight infection and heal wounds

- Easy squeeze application for immediate relief
- Triple and Bacitracin Ointments protect against infection in minor cuts, scrapes and burns
- Hydrocortisone Cream provides relief from itching & rashes

Instant Antiseptic Hand Sanitizer

Kills 99.9% of germs without water.

- Hand washing is the single most important means of preventing the spread of infection.
- Products that clean, refresh and provide the solution to fighting germs and risk of contamination.
- Moisturizing Aloe-based formula.
- Convenient 2, 4 & 8-oz dispenser bottles and individual 0.9g unit dose packets in 25-count and 144-count boxes.

8 oz Pump Bottle

Muscle Jel

Quick relief of minor aches and pains.

- Highly effective analgesic formulated for penetrating relief of minor pain associated with back and muscle aches, arthritis, strains, sprains and bruises.
- Clear formula does not stain clothing.
- Light, greaseless gel is easily absorbed
- Full line of products – including Spray, Tube, new Glide-on Massage-in Formula and large Pump Bottles
- Single unit dose packets: 3.5g available in 24-count and 96-count dispenser cartons.

When Seconds Count.

WATER-JEL

Fire Blankets are packaged in a more contemporary and ergonomic version of the "orange canister" that has become an icon in Emergency Burn Treatment.

Modern technology has advanced the engineering and manufacturing process so that a more efficient unit can be manufactured. This allows for quicker response time in an emergency situation.

Available in 3 sizes:

- 36" x 30"
- 6' x 5'
- 8' x 6'

In a burn emergency, every second is critical. By saving precious time, you could be saving a life. Water-Jel Fire Blankets are 100% worsted wool, with an intercellular weave capable of absorbing up to 13 times its own weight of the scientifically formulated cooling gel in which it is soaked. This biodegradable, bacteriostatic and water-soluble gel immediately upon contact, begins to extinguish the flame, cool the burn and help stop burn progression and pain. It stabilizes the patient and helps prepare for transport to a burn center or ER.

- These blankets are vital in areas where high heat flames, arc flash, hot liquid, steam or chemicals exist.
- Blankets can also be used to put out fires and protect a rescuer from heat and flames.
- Medical Devices – contain no drugs or other active ingredients.
- Used by EMS, Firefighters, Utility companies, Industrial Institutions and the Military around the world.

Improved Canister Design:

- Swift removal of blanket means faster response to a burn emergency
- Black clips have been replaced - no more bending, cracking or resistance of old style.
- New Grip & Turn allows simple, quick opening.
- Easy lock mechanism keeps blanket securely inside
- Easy grasp handle on larger units makes carrying convenient
- All physical specs remain unchanged (weight, size, construction integrity)

SOFT-SIDED BURN KITS

HARD-SIDED BURN KITS

BE PREPARED FOR ANY BURN EMERGENCY.

More than 25 years ago, WATER-JEL introduced water-based gel technology that revolutionized the emergency first aid treatment of burns. Today, WATER-JEL is used by EMS and industrial health and safety professionals around the world.

The “immediate cooling” of burns is recommended by most EMS protocols and curriculum.

The gel used in WATER-JEL Fire Blankets and Dressings is made from 96% water and is very slow to evaporate, so blankets and dressings remain moist and won't stick to burn injuries. They provide thermal (not evaporative) cooling of burns without the need for re-wetting so they're easy to use and won't get too cold or increase the risk of hypothermia – even on large extent burns. The gel also contains medically pure tea tree oil, a natural antibacterial.

- Leading the World in Emergency Burn Care!
- Exclusive Supplier to the US Military
- Mandated in Formula One Racing . . . they cannot start a race without it trackside in every pit crew
- Made in the USA at an FDA-regulated facility
- Used by many Fortune 500 companies worldwide

FAST-ACTING, DEEP-PENETRATING, MUSCLE PAIN RELIEF

A highly effective therapeutic analgesic formulated for fast-acting relief of pain associated with back and muscle aches, arthritis, joint strains, sprains and bruises. This light, greaseless formula gel cools and soothes – then warms and penetrates deep to relieve pain.

Ideal for use in the workplace. Research* shows that – next to headaches -- back pain, arthritis and other musculoskeletal pain affect the greatest number of workers annually, accounting for loss of productivity and absenteeism at a cost estimated at \$61 billion. The study says that one in eight working Americans suffers from pain conditions that reduce efficiency and productivity at work. Availability of this product can greatly alleviate this problem and improve performance at work.

*Appeared in Journal of the American Medical Association – study conducted by Center for Health Research and Rural Advocacy, Geisinger Health System, using data from the American Productivity Audit and supported by Advance PCS Center for Work and Health – Hunt Valley, MD.

- Convenient unit-dose packets 3.5g – for easy application to local pain areas.
- Light, greaseless formula – stainless / clear gel that is safe for clothing.
- Active ingredient: Menthol 3.5% - provides comforting warmth and quick pain relief. Also contains Camphor and Panax Ginseng Root.
- Available in 96-pc and 24-pc dispenser cartons.
